Objective:

Detail-oriented Data Analyst with one year of experience, seeking to leverage analytical skills and expertise in data interpretation to support informed decision-making and business optimization at the University of North Texas (UNT) in a part-time, on-campus capacity.

Education:

- University Of North Texas, Advanced Data Analytics, Graduation Date: [Jan 2023 - Dec 2024]

Experience:

[Company: EverestDx PVT Limited], Data Analyst, [Oct 2020 – Dec 2022]

- Conducted data collection, cleaning, and preparation, ensuring accuracy and readiness for analysis.

- Utilized statistical methods and visualization tools to explore and analyze data, generating actionable insights.

- Developed and maintained accurate contact logs, providing administrative and clerical support as needed.

- Collaborated with cross-functional teams to ensure smooth data flow across systems and supported technical troubleshooting.

Skills:

- Data Analysis: Proficient in using statistical methods, data cleaning, and exploratory data analysis techniques.

- Tools: Expertise in Excel, Java, SQL, Adobe XD, Adobe Illustrator.

- Data Visualization: Experience in creating visually appealing charts and graphs for effective data communication.

- Communication: Strong oral and written communication skills for reporting insights and findings to stakeholders.

- Problem Solving: Ability to identify and address business challenges using data-driven approaches.

Sincerely,

Bhagyasri Katuri.
